

Replace Adobe Search&Promote with AI Powered Search

OUR PROCESS

FEATURES

HOW WE COMPARE

SearchBlox makes it simple to replace Adobe Search&Promote

Fixed-cost migration that's done in two weeks.

A modern, AI-powered search solution creates better experiences and a more connected enterprise. Move from Adobe Search&Promote with confidence and help your customers and teams make better decisions faster with our suite of smart tools.

We make migration simple, step-by-step:

1. Plan

Tell us what you want and need in your next search solution (free consult).

2. Review

Our team gets under the hood to understand your current configuration and user experience.

3. Migrate

We set up SearchBlox and start running use cases to optimize your environment.

4. Deliver

When it all looks good to your team, we push it live.

5. Support

We validate the changes and you're off and running, searching and finding all your critical data!

Rest assured we've got all your needs covered.

We get it. Change is hard.

Moving to a new search solution that checks all the boxes shouldn't be.

Our goal is to make it so seamless you'll ask "Why didn't we make the switch sooner?" Move from Adobe Search&Promote to SearchBlox with confidence and ease: our process takes just two weeks.

We make migrations simple.

SearchBlox is an Adobe Exchange Partner. We provide native integration with Adobe Experience Manager.

For retail customers using Search&Promote, Adobe suggests Magento Commerce as a replacement. While that's a great tool for shopping experiences, the scope of what the product does for enterprise content and external document repositories is limited. With over 300+ connectors and a ready NLP automation pipeline, our tools replace manual, repetitive tasks across the organization—from automatically fixing content titles and descriptions, to extracting insights from documents stored in Adobe Experience Manager. Set up a call to talk about how a search upgrade creates engaging customer experiences and makes your teams more productive.
